

Year 2's Chirp

Dear Parents and Guardians,

It is hard to believe we are already approaching the halfway point of the school year! We are so proud of how much the children are growing up; they are becoming increasingly independent and taking a very active role in their learning.

Year 2's learning

Maths: We are moving on from our work on multiplication and starting division.

English: The children have been busy levelling up their writing by using conjunctions and experimenting with different sentence starters. Our daily handwriting practice is really paying off, and many children have now started joining their letters!

Geography: We are super impressed with the class! They can now confidently name and locate the continents and oceans on a world map.

Science: We are continuing our look at habitats, specifically exploring the "why"—understanding why certain animals are suited to live in specific environments.

Supporting your child

Read, Read, Read! We have been focusing heavily on reading comprehension in class. Some children are finding it a bit tricky to find specific answers within the text, so when reading at home, please ask them questions that require them to point to or "prove" their answer using the words on the page. Even 5 minutes a day makes a huge difference!

Maths Homework: Please keep an eye out as we will occasionally be sending maths homework home to reinforce what we are learning in class.

Donations

Our "Creation Station" still needs your help! We would be very grateful for:

Crafty bits: Stickers, sequins, ribbon, buttons, or card.

Cardboard: Small cardboard boxes and cardboard rolls (toilet roll or kitchen roll tubes). Thank you for your continued support—it truly is greatly appreciated!

Dates to remember

Half Term - Friday 13th February
